# NEURAL NETWORK WORLD
# VOLUME 29 (2019)
# AUTHOR'S INDEX

**Abbas S., Adnan Khan M., Ata A., Ahmad G., Saeed A., Anwar N.:** Multi user detection using fuzzy logic empowered adaptive back propagation neural network ..... 381–401

**Alquran H., Alqudah A.M., Abu-Qasmieh I., Al-Badarneh A., Almashaqbeh S.:** ECG classification using higher order spectral estimation and deep learning techniques ..... 207–219

**Ata A., Khan M.A., Abbas S., Ahmad G., Fatima A.:** Modelling smart road traffic congestion control system using machine learning techniques ..... 99–110

**Bouchner P., Novák M., Votruba Z.:** EDITORIAL: How can artificial systems rise in a tool for mind? .....373–379

**Cheng Y., Ye Z., Wang M., Zhang Q.:** Document classification based on convolutional neural network and hierarchical attention network .....83–98

**Faber J., Novák M., Kovaljov M., Chalupová R., Bouchner P.:** Dynamics of sinusoidal alpha waves asymmetry in brain electrical field ..... 427–445

**Fister D., Mun J.C., Jagrič V., Jagrič T.:** Deep learning for stock market trading: a superior trading strategy? .....151–171

**Fu X.Y., Luo H., Zhang G.Y., Zhong S.S.:** A lazy support vector regression model for prediction problems with small sample size ..... 33–44

**Henclová K.:** Using CMA-ES for tuning coupled PID controllers within models of combustion engines .....325–344

**Jha S.K., Bilalovikj J.:** A comparative approach of neural network and regression analysis in very short-term wind speed prediction ..... 285–300

**Kilic H., Yuzgec U., Karakuzu C.:** Improved Antlion Optimizer Algorithm and its performance on neuro fuzzy inference system ..... 235–254

**Kratochvíl R., Jánešová M.:** Use of clustering for creating economic-mathematical model of a web portal ..... 61–70

**Křížek M.:** Do Einstein's equations describe reality well? ..... 255–283

**Li Q., Liu X.:** Voltage stability assessment of complex power system based on GA-SVM ..... 447–463

**Ling Y., Chai C., Hou W., Hei D., Qing S., Jia W.:** A new method for nuclear accident source term inversion based on GA-BPNN algorithm ..... 71–82

**Milošević N., Racković, M.:** Classification based on missing features in deep Convolutional Neural Networks ..... 221–234

**Raja Basha A., Yaashuwanth C.:** An optimal data aggregation scheme for wireless sensor network using QOS parameters with efficient failure detection and loss recovery technique ..... 301–324

**Rybičková A., Mocková D., Teichmann D.:** Genetic algorithm for the continuous location-routing problem ..... 173–187

**Saadi A., Belhadef H.:** Towards an optimal set of initial weights for a Deep Neural Network architecture ..... 403–426

**Sharif S.M.A., Mahboob M.:** Deep HOG: A hybrid model to classify Bangla isolated alpha-numerical symbols ..... 111–133

**Snor J., Kukal J., Van Tran Q.:** SOM in Hilbert space ..... 19–31

**Su T., Min S., Shi A., Cao Z., Dong M.:** A CNN-LSVM model for imbalanced images identification of wheat leaf ..... 345–361

**Svítek M.:** Quantum multidimensional models of complex systems ..... 363–371

**Tekerek A., Bay O.F.:** Design and implementation of an artificial intelligence-based web application firewall model ..... 189–206

**Vaitová M., Štemberk P., Rosseel T.M.:** Fuzzy logic model of irradiated aggregates ..... 1–18

**Xia M., Zhang C., Wang Y., Liu J., Li C.:** Memory based decision making: A spiking neural circuit model ..... 135–149

**Yildirim O., Baloglu U.B.: RegP:** A new pooling algorithm for deep convolutional neural networks ..... 45–60
